

KEY INVESTOR INFORMATION

This document provides you with key information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in the fund. You are advised to read it so you can make an informed decision about whether to invest.

SWEDBANK Pension Fund V60 (the Fund)

Unit class: one type without nominal value
ISIN code: EE3600071031

Management company: Swedbank Investeerimisfondid AS, subsidiary of Swedbank Robur AB.

OBJECTIVES AND INVESTMENT POLICY

The Fund is a voluntary pension fund. Its main purpose is to provide the Funds' unit holders with additional income in addition to the state after reaching the retirement age. The investment objective of the Fund is to achieve a stable long-term growth of the value of the assets of the Fund.

Up to 60% of the Fund's assets may be invested in instruments with equity risk, with the remaining portion of the Fund's assets invested in bonds, money market instruments, deposits, immovables and other assets permitted by legislation. The Funds' assets are, *inter alia*, invested through other investment funds.

Upon investment of the assets, the Fund has not specialised by sectors of economy, regions or countries. The reciprocal proportions of the specific type of assets, the type of the issuer, the region or

the sector of economy shall be determined by the management company in the course of everyday management.

The Fund may conclude transactions with derivative instruments for the purpose of achieving the investment objectives of the Fund and hedging the risk arising from fluctuation of prices of securities in the assets of the Fund.

The Fund does not allow for discretionary choices for investors in regards to the particular investments. The proceeds from the investments of the Fund are kept by the Fund and reinvested.

Recommendation: the Fund should be opted for a medium-term or longer (at least 7 years) investment period.

RISK AND REWARD PROFILE

The synthetic indicator shows the correlation between risk and potential reward. The categories specified in the risk scale are based on the fluctuation of the value of the Fund's assets during the last five years. In this respect, category 1 does not mean a risk-free investment.

The Fund belongs to category 4, i.e. it involves average risk. This means that the Fund is sensitive

towards the decline or growth of the value of the assets.

The Fund may incline on the scale both towards the left and the right over time. This happens due to the fact that the scale is based on historical data which is not a guarantee for future risk/reward.

The Fund invests up to 60% of its assets in equities, equity funds, and other equity-like instruments, therefore the management company consider **equity risk**, as well as **market concentration risk** and **market liquidity risk** to be higher than usual in regards to the Fund.

CHARGES

One-off charges taken before or after you invest

Entry charge	0%
Exit charge	1%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you might pay less. You can find out the actual charges from your financial adviser or distributor.

Charges taken from the fund over a year.

Ongoing charges	1.60%
------------------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	none
------------------------	------

The ongoing charge is based on the costs of 2018 and may differ over the years. The ongoing charge includes, *inter alia*, the management fee, the depository fees, the transfer fees and service charges (except broker fees) directly related to transactions performed for the account of the Fund,

the ongoing charges of the funds into which the Fund invests (which may in some cases be estimations), and other fees, charges and expenses related to the management of the Fund as specified in the rules or the prospectus of the Fund.

The charges cover the Fund's management expenses, including the Fund's marketing and distributing costs. These charges reduce the potential growth of the investment. For additional information regarding the charges please see Section "Fees and Expenses Related to Funds" from the prospectus.

PAST PERFORMANCE

The Fund's performance is calculated after the deduction of ongoing charges.

The performance is calculated in euros.

Past performance is not a guarantee for future performance.

The Fund is established on 3 September 2003.

PRACTICAL INFORMATION

Additional information about the Fund is included in the prospectus, rules and annual report, which are available on the management company's homepage and at the office of the management company as free copies in Estonian language.
