## Portfolio by regions

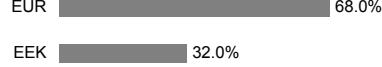

Swedbank Pension Fund K1 performance in October was 0.003%, with YTD performance of 2.7%. In October the global financial markets adopted a wait-and-see stance. Several significant events with a major impact on the development of the markets took place over a short period of time – the publication of Q3 earnings results began in the middle of the month and in the first week of November there were US Congress elections and a regular meeting of the Federal Reserve, which adopted a decision on further economic stimulus measures. The US and German short-term government bond yields have moved in the opposite direction for the first time in a long while. On expectations for further stimulus measures the short-term yields of the US bonds fell to the lowest level in the last decades, but the yield levels of German government bonds of all maturities shifted higher over the month.

Following the additional monetary policy stimulus measures by the US Federal Reserve and the Bank of Japan the yields of government bonds of the majority of developed countries are likely to remain at a very low level also in the coming months. Yet, we think that the yields of longer-term bonds will start to show a gradual upward trend more clearly. This is supported by the fact that long-term inflation expectations have risen significantly compared to two months ago. Therefore, we will continue to favour corporate bonds containing a credit premium as well as short-term government bonds of developed countries.

\* The value of fund units may rise or fall over time. The fund's historical performance does not promise or offer any indications regarding future performance. Investments in foreign markets are sensitive to changes in foreign currency exchange rates, which may cause a rise or a fall in the net value of the fund unit.

Please read fund's rules and prospectuses available on the web-site [www.swedbank.ee/fondid](http://www.swedbank.ee/fondid) or visit a Swedbank office. If necessary, consult with a teller or an investment consultant.
