

Swedbank Pension Fund Index

Factsheet | Data as of 31 January 2022

Investment principles

The Fund is a fund established to allow mandatory funded pension. Its main purpose in operating is to provide the Funds' unit holders with additional income in addition to the state pension after reaching the retirement age. The assets of the Fund are predominantly invested in other investment funds tracking global equity indices of developed countries. Up to 100% of the Fund's assets may be invested in instruments with equity risk. The investment of the assets of the Fund shall take into consideration the ESG (environmental, social, governance) factors or principles of other fields of responsible and sustainable policy.
