Factsheet | Data as of 31 December 2020

Investment principles

Swedbank Pension Fund K30 is a contractual investment fund founded for providing mandatory funded pension. Up to 30% of the fund's assets may be invested in equities, equity funds and other equity-like instruments, with the remaining portion of the fund's assets invested in bonds, money market instruments, deposits, immovables and other assets permitted by legislation. The objective of balanced strategy is to help to grow capital even over a shorter period of time, but the value of capital should primarily grow in a longer-term perspective. The investor must be prepared for short-term fluctuations in the unit value.
