

Swedbank Pension Fund Generation 1990-99 Index

Factsheet | Data as of 30 November 2025

Investment principles

The Fund is a fund established to allow mandatory funded pension. Its main purpose in operating is to provide the Funds' unit holders with additional income in addition to the state pension after reaching the retirement age. The assets of the Fund are predominantly invested in instruments that follow global equity indices of developed countries and bond indices consisting of investmentgrade financial instruments denominated in euros and that the management company reduces the ratio of instruments carrying equity risk in the Fund's assets over time pursuant to the conditions and prospectus of the Fund. The investment of the assets of the Fund shall take into consideration the ESG (environmental, social, governance) factors or principles of other fields of responsible and sustainable policy.

Risk and Reward profile

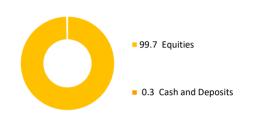

Lower risk				Higher risk				
Potentially lower rewards				Potentially higher				
							re	ewards
	1	2	3	4	5	6	7	

The categories specified in the risk scale are based on the fluctuation of the value of the Fund's assets or the appropriate allocation of assets during the last five years.
