

Swedbank Pension Fund V100 index (limited redemption)

Factsheet | Data as of 30 September 2026

Investment principles

The Fund is a voluntary pension fund. Its main purpose is to provide the Funds' unit holders with additional income in addition to the state pension after reaching the retirement age. The assets of the Fund are predominantly invested in other investment funds tracking global equity indices of developed countries. Up to 100% of the Fund's assets may be invested in instruments with equity risk. The investment of the assets of the Fund shall take into consideration the ESG (environmental, social, governance) factors or principles of other fields of responsible and sustainable policy.

Risk and Reward profile

The categories specified in the risk scale are based on the fluctuation of the value of the Fund's assets or the appropriate allocation of assets during the last five years.
