

Swedbank Pension Fund V60 index (limited redemption)

Factsheet | Data as of 30 June 2026

Investment principles

The Fund is a voluntary pension fund. Its main purpose is to provide the Funds' unit holders with additional income in addition to the state pension after reaching the retirement age. The assets of the Fund are predominantly invested in instruments that follow global equity indices of developed countries and bond indices consisting of investment-grade financial instruments denominated in euros. Up to 60% of the Fund's assets may be invested in instruments with equity risk. The investment of the assets of the Fund shall take into consideration the ESG (environmental, social, governance) factors or principles of other fields of responsible and sustainable policy.
